ROUTES OF ENTRY
INHALATION: Yes
SKIN: Yes
INGESTION: Yes

MEDICAL CONDITIONS AGGRAVATED BY OVEREXPOSURE:
Respiratory Disorders

EFFECTS OF OVEREXPOSURE (acute and chronic):
INHALATION: May be harmful if inhaled. A comparative study showed that yttrium oxide produced pulmonary changes (diffuse sclerosis) in rats. (4)
SWALLOWING: Evidence suggests low toxicity potential due to poor absorption by the oral route.
SKIN ABSORPTION: Evidence suggests low toxicity potential due to poor skin absorption. (1)
SKIN CONTACT: May cause skin irritation.
EYE CONTACT: May cause eye irritation.
OTHER: Has anticoagulant effect when given intravenously. (1)

Carcinogenicity: None NTP: No IARC Monographs: NO OSHA Regulate: NO

EMERGENCY FIRST AID PROCEDURES:
INGESTION: Administer 1-2 cups of water and induce vomiting, seek medical attention.
INHALATION: Remove from area of exposure. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. GET MEDICAL ATTENTION.
SKIN CONTACT: In case of contact, immediately wash with soap and plenty of water for at least 5 min. Remove contaminated clothing and shoes. Thoroughly clean contaminated clothing and shoes before reuse. Get medical attention if irritation develops or persists.
EYE CONTACT: In case of contact, immediately flush eyes with plenty of water for at least 15 min. using an eyewash fountain. Lift upper and lower lids and rinse well under then. Get medical attention if irritation develops or persists.
NOTE TO PHYSICIAN: All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibilities that over exposure to materials other than this product may have occurred. Treat symptomatically, no specific information found.

SAFE HANDLING AND USE

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED: Eliminate all sources of ignition. Evacuate area. Wear appropriate protective gear. Sweep into appropriate container. Avoid creating dust. Do not use “shop” vacuum as this may cause a fire. Ventilate area. Wash spill area after material pickup is complete.

WASTE DISPOSAL METHOD: Consult federal, state and local regulations for proper disposal.

HANDLING AND STORAGE: Store in a cool, dry place in tightly closed containers. Air and moisture sensitive. Store away from oxidizers and other materials listed under incompatibility (Section 5). STORE UNDER ARGON OR OTHER INERT ENVIRONMENT. Avoid breathing dusts. Avoid direct or prolonged contact with skin and eyes. Wash hands thoroughly after handling. Do not rub eyes with soiled hands. Do not eat, drink or smoke in the work area.

OTHER PRECAUTIONS:
Avoid creating dusts as this product, like most materials in powder form, is capable of creating a dust explosion.
